Chart # 3
Abraham's genealogy to the fourth generation

Genesis 46:8-25

This chart demonstrates that Shelah, who represents the "Jew" of today, is only one of the fifty-one sons in the fourth generation from Abraham. Where are the descendants of the other fifty sons who are not called "Jews"? This means that the "Jews" represent only 1.92% of the entire Abrahamic family!

God's promise to Abraham was that his offspring would be as the dust of the earth, the stars of heaven and the sand of the seashore in number.
